# The Annual Report of the Town Officers of the Town of Springfield, Vt. for the Year Ending February 1, 1920

# Auditors' Report

Your auditors herewith submit their report for the current year:—

They find that the liabilities have increased to the amount of $4723 28.

Your auditors notice an accumulation of interest on the Campbell fund, that shows careful judgment in its dispensation. Yet we feel that it was the intent of the donor that this interest be expended from year to year.

# School Directors' Report

The school directors submit to the taxpayers their annual report.

A few weeks ago the school directors announced that they proposed, if the town provides the means, to make such an increase in the salaries of teachers that the minimum amount paid shall be $1000 for grade work in the village. The salaries of teachers in the rural schools will be increased so that the amounts paid will be in excess of those recommended by the state board of education. The largest increase will be received by the teachers who are at present paid the lowest salaries. Those who are now receiving the largest salaries will receive an increase graduated by the amounts now received.

In order to carry out this plan of increase in salaries the directors will be obliged to ask for a considerable increase in the rate of taxation for school purposes. We hope and believe that the town will vote this increase so that the teachers may be adequately paid for the efficient service rendered.

We also wish to say a word regarding the need of a new building. This need has been apparent to many for some time. The large number of new houses built in the last two years and the number now in process of construction brings this need to the townspeople with greater emphasis. The num-

ber of school children has so increased that those in the first and second grades of the Park street building are allowed to attend school only on part time. Next year the part time arrangement may have to be extended to the third and fourth grades. If these two grades can attend school only part of the time the result will be a serious loss to the pupils. Children of the first two grades may not suffer so seriously by this arrangement but when older ones are compelled to be out of school for half the time the result will inevitably be detrimental not only to their work of those years but to all their school work of later years.

The school directors believe that additional school accommodations must be provided to meet the growth of the town and we recommend that favorable action be taken on this question.

A detailed financial statement of the expenditures for schools from Feb. 1, 1919, to Jan. 31, 1920, follows.

All of which is respectfully submitted.

WARREN E. FISHER
CORA F. BENNETT
JOHN E. STETSON
School Directors.

| Excess of expenditure over receipts | $ 3932 64 |

Your auditors wish the voters to understand that it became necessary to borrow $23200 until sufficient taxes were collected to provide for payment of school expenses. The order for $23856 82 was drawn in payment of same with accrued interest. The actual expense to the town was the amount of the interest, $656 82, not for the full amount of the order as it would seem to appear.

The auditors wish to commend the school directors for the accuracy of their account as presented to them.

# Librarian's Report

To the Trustees of the Springfield Town Library and to the Public:—

The following is a report of the work of the library for the year ending January 31, 1920:—

There were 10229 books in the library February 1, 1919. Seven hundred fifteen books were acquired during the year, of which 565 were purchased, 9 were gifts and 141 were transferred from the pay collection of duplicate fiction. Two hundred eighty-four old and worn books were removed from circulation. There are now 10660 books listed.

Fifty-two thousand three hundred ninety books and magazines were loaned in the 292 days the library was open to the public, an average of 179 per day, and an increase of 1490 over last year's circulation. Four hundred twenty-four cards were issued to new patrons.

The library was closed from March 24 to April 7 because of the influenza epidemic.

One hundred eighteen books were in the pay collection of duplicate fiction February 1, 1919. One hundred forty-eight were added to the collection during the year, and 141 were transferred to the free shelves of the library, leaving 125 now in the collection. Two hundred twenty-three dollars and fifty cents was realized from the loan of these books. This money was used to purchase new books.

Two thousand twenty-five books were sent to the delivery station at North Springfield from February 1 to October 15, 1919, in fortnightly deliveries. Because of difficulty in obtaining any one to trans-

port the books back and forth every two weeks it was decided to convert the delivery station into a branch library. That is to send a greater number of books up at a time, to be kept and circulated from Mrs. Kendall's and the schoolhouse, instead of charging the books here at the library on individual cards. This change gives the people a chance to select from the books instead of sending lists to us. The change has been successful and 942 books were circulated from October 15, to date. Much credit is due Mr. and Mrs. Kendall in working out this plan, and to Sadie Olney and Beatrice Ward for their work with the books at the schoolhouse.

Two magazine clubs for people outside the village were supplied with magazines from our reading room tables.

The garden flower exhibit held in June under the auspices of the Cosmopolitan club was a delight to all who saw it.

In July Mrs. Bradford H. Harlow presented to the library a very fine collection of birds in memory of Dr. Ebenezer A. Knight, the collector. Dr. Knight was a prominent citizen and leading physician in Springfield for 26 years, 1846-1872. The collection is now crowded into a corner of one of the reading rooms, near the collection presented to the library by Mrs. H. H. Blanchard, three years ago. It is hoped that some time we will have more room so these collections may have a more prominent place.

The over-crowded condition of the whole library is deplorable. The stacks are over-crowded and the children's department is badly congested. The last available space in the reading room for a book case has been used this year. In September

Miss Slack, who had been an efficient assistant at the library for more than a year, resigned her position. The vacancy was filled by Meryl Johnson.

In behalf of the library I extend thanks to each and every one, who, by gift of money, books, magazines, personal services, or other tokens of appreciation and interest, have helped in the work.

ELIZABETH M. McCARTHY,
Librarian.

# Russian Orphanage

In 1915 Archbishop Evodokin, head of the Russian Church in America, came here and established what he called a Woman's Monastery and Orphanage for the Russian church in America, and installed Rev. Mother Paulina (Paulina Fedoronko) a Carpatho Russian sister of charity, at the head of the institution. Since then she has been given the title of Abbess, which gives her authority over the whole property and institution.

The archbishop agreed at that time that if children that were sent here, were taken into the public schools the church would pay as tuition to the town, the same price that the town receives for children coming from out of town. Two members of the board of school directors were notified of the statement of the archbishop at that time and did not object to the arrangement. Up to February 1, 1920, no bill has ever been presented to the church, monastery or orphanage by the board of school directors for said tuitions. Your selectmen have called the attention of members of the school board to this condition on several occasions, and about a year ago began investigating with the result that we have found that in July, 1917, Archbishop Evodokin was called back to Russia on account of war conditions there and has not returned to this country. Up to that time the orphanage was supplied with sufficient funds to support the children and pay the tuition. After the archbishop left, the church in this country was split in factions, and the affairs of the orphanage was lost sight of.

One of the selectmen went to New York last December and attended a Carpatho Russian congress, and was invited to speak before about five hundred priests and delegates and explain the condition of the orphanage in Springfield. These priests and delegates came from a large number of Russian churches in America. At the close of his remarks the entire audience stood up and pledged themselves to the support of the monastery and orphanage, and to see that the town is reimbursed for its expenses for the institution, and in a vote then taken they asked that their thanks be extended to the citizens of the town of Springfield for their kindness and generosity to the children. Considerable money has already come to the Rev. Mother Paulina since said Congress, most of which had to be used for fuel, food and clothes for the children. Since February 1 the orphanage has received a bill from the school board for the last half year's tuition, which the selectmen have approved at $246.00 and the town treasurer has received and given his receipt for the same.

Since Archbishop Evodokin was called back to Russia the orphanage has been very pressed for money with which to support nearly seventy children, and we recognize that the Rev. Mother Paulina has done a heroic work in getting the money to support so many children and we believe that few American women could have done it, but we are surprised to find a majority of the Russian contingent in this town led by Rev. Varlashkin taking advantage of these poor helpless children, and it was only by strict orders of the court that he was compelled to turn over to the orphanage more than eleven hundred dollars and now it is represented to us that the Rev. Varlashkin and the St. Trinity Brotherhood are owing the monastery more than three hundred dollars

for coal and heat for the priest and Brotherhood alone, aside from other indebtedness. If this can be collected it will help pay over two thousand dollars that the orphanage owes the town on back tuitions.

## TOWN TRUCKS

Your Selectmen report the results of buying two 2½ ton self hoisting trucks and the work done by them has been very satisfactory. While the following figures are not absolutely accurate they give the results of the purchasing and the operating of these trucks in a general way. The trucks were used the first six months after delivery by the Town, Village and State Highway work 1368 hours. They have been rented out when not in use for town work, 1355 hours at a rental of $2.25 an hour, which is about 20% less than 2½ ton trucks without the dumping hoist can be hired in this town. We find that the expense for hauling one yard of gravel four and one-half miles with trucks cost 54 cents. We find that hauling the same amount of gravel the same distance with teams costs $4.00. It would have been impossible for us to have hired teams or trucks to do the town work this year without paying prohibitive prices.

| | |
|---|---|
| The purchase price of the trucks | $6056 00 |
| The operating expense for 2723 hours | 2341 78 |
| Sundries which have been purchased for the trucks, war tax, freight and registration | 718 35 |
| Repairs on trucks about | 153 27 |

SELECTMEN OF SPRINGFIELD

# Report of Special Committee on Town Management Plan

Voters of the Town of Springfield:—

Your special committee, appointed at the last annual town meeting to investigate and report as to advisability of Springfield's adopting the Town Manager plan, present the following report:—

We find that considerably over 100 towns and cities in the United States are using the Town Manager plan or a similar plan. We furthermore find, almost without exception, that this plan has proved a success in the communities where it has been tried out, resulting either in equal or increased efficiency at a smaller tax rate, or in a greatly increased efficiency with the same tax rate. The only cases we have found where the plan has not been a success is where local politicians received the appointment.

We recommend the Town of Springfield vote to accept Chapter 174 of the Public Statutes of the State of Vermont, which places the Town of Springfield on record in favor of the Town Manager plan for the ensuing year.

We recommend that the voters instruct and request the Selectmen to appoint to this position an out-of-town man with proper experience and training.

We recommend that the selectmen be authorized and instructed, in case the Village of Springfield also votes in favor of a Town Manager, to unite with the Village trustees and secure a competent man, who will handle the work for both Town and Village, the expense being divided between Town and Village on some equitable basis.

We recommend that a salary of not less than $3500.00 be paid to a suitable person.

While we believe there is no question about the beneficial results to be obtained from the Town Manager system, we realize that it will take time to get this system into operation, and we recommend to the voters of the Town that if they favor this plan they prepare to stand back of it for a period of three years.
